Minutes

5:20pm:	Meeting called to order. No quorum
5:21pm	Chanel and Kate reviewed the state assessments and local CCS assessments and determined that all local assessments were acceptable for the '26-27 school year. Chanel commented that students take too many LEAP tests and are tested by the state too often, especially in 3rd grade.
5:41pm	Kate presented priorities for math instruction and discussed with Chanel a few new products that CCS is considering using. Chanel shared her concerns that Common Core Math may not focus on students learning the standard algorithm.
5:51pm	Kate shared and update on the AI Task Force. Chanel suggested that the Task Force attend a future board meeting to hear how board members are using AI in their work.
5:56pm	Meeting adjourned.
